

**CANCER IMAGING 2007**  
**Joint Meeting of the International Cancer Imaging Society**  
**& Hong Kong College of Radiologists**  
**10<sup>th</sup> & 11<sup>th</sup> February 2007 (Saturday & Sunday)**

**PROGRAMME**

<b>SATURDAY 10<sup>TH</sup> FEBRUARY 2007</b>		
0815 - 0830	Welcome address	Lilian Leong & Rodney Reznek
0830 -0900	Cancer Imaging: The Significance of the Results	Rodney Reznek
0900-1115	<b>Multidisciplinary Symposium – Lung Cancer</b>	
	<i>Lung Cancer Imaging – A Surgeon's Perspective</i> <i>What does the oncologist need to know?</i> <i>Lung Cancer mimics on imaging</i> <i>Staging of lung cancer and determining resectability</i> <i>Imaging of recurrent lung cancer</i> <i>Discussion</i>	Anthony Yim TM Chan Clara Ooi Sheila Rankin Leslie Quint
1115-1145	<b>Coffee</b>	
1145-1230	<b>WORKSHOPS</b>	
1	CT of anterior mediastinal masses	Leslie Quint
2	US of neck masses that may simulate metastases	Anil Ahuja
1230-1330	<b>Lunch</b>	
1330-1400	CT Colonography for Colorectal Cancer Screening: Current Status	Jay Heiken
1400-1545	<b>Multidisciplinary Symposium – Hepatocellular Carcinoma and Liver Metastases</b>	
	<i>Surgeon: What do I need to know?</i> <i>Hepatocellular carcinoma: Imaging evaluation with CT and MRI</i> <i>Liver metastases: MDCT, MR, PET/CT, US: What should we use when?</i> <i>Interventional techniques in HCC and liver metastases</i> <i>Discussion</i>	Ronnie Poon Jay Heiken Richard Gore  WK Tso
1545-1615	<b>Coffee</b>	
1615-1700	<b>WORKSHOPS</b>	
3	Musculoskeletal Tumours - Imaging aspects	James Griffith & Greg Antonio
4	Imaging neck lymphadenopathy	Robert Hermans
<b>SUNDAY 11<sup>TH</sup> FEBRUARY 2007</b>		
0830-0900	Staging Upper GI Tumours	Richard Gore
0900-1115	<b>Multidisciplinary Symposium – Head and Neck Tumours</b>	
	<i>Key imaging points in planning surgery</i> <i>The role of radiotherapy</i> <i>Imaging the tumour volume in head and neck cancer</i> <i>Ultrasound of neck nodes for cancer</i> <i>Post-radiation therapy imaging</i> <i>Discussion</i>	William Wei Daniel Chua Robert Hermans Anil Ahuja Vincent Chong
1115-1145	<b>Coffee</b>	
1145-1230	<b>WORKSHOPS</b>	
5	Benign liver masses: Detection and characterization with CT and MRI	Jay Heiken
6	Interventional Oncology: A new horizon	Philip Kwok
1230-1330	<b>Lunch</b>	
1330-1400	PET in Oncology	Sheila Rankin
1400-1545	<b>Multidisciplinary Symposium – Carcinoma of Uterus, Cervix and Ovary</b>	
	<i>Key points in surgery</i> <i>The role of radiotherapy</i> <i>MRI of carcinoma of the cervix and uterus</i> <i>Ultrasound of ovarian masses</i> <i>MRI of indeterminate adnexal masses</i> <i>Discussion</i>	Hextan Ngan Wong Kam Hung Rodney Reznek Tina Lam Rodney Reznek
1545-1615	<b>Coffee</b>	
1615-1700	<b>WORKSHOPS</b>	
7	Thyroid cancer: Imaging issues	Vincent Chong
8	MR imaging of Paediatric Oncology	Khong Pek Lan
