| 1030 - 1045 | Multidisciplinary Symposium: Lymphoma     |                                             | Updates on Diffuse Large B-cell Lymphoma  
Dr. John Kwok Cheung CHAN                                                                           |                                      |
| 1045 - 1100 | Hybrid Imaging of Lymphoma             |                                             | Hybrid Imaging of Lymphoma  
Dr. Kwong Kam WONG                                                                                |                                      |
| 1100 - 1115 | Imaging of Lymphoma in Children       |                                             | Imaging of Lymphoma in Children  
Prof. Pak Lan KHONG                                                                              |                                      |
| 1115 - 1130 | Novel Therapy in Lymphoma             |                                             | Novel Therapy in Lymphoma  
Dr. Wai Yan AU                                                                                   |                                      |
| 1130 - 1145 | Radiotherapy for Lymphoma in 2017     |                                             | Radiotherapy for Lymphoma in 2017  
Dr. Harry Ho Yin YU                                                                             |                                      |
| 1145 - 1230 | Discussion                           |                                             | Discussion                                                                                   |                                      |
| 1230 - 1400 | Lunch (Run Run Shaw Hall, 1/F)          |                                             | Lunch (Run Run Shaw Hall, 1/F)                                                                |                                      |
| 1400 - 1420 | Current Clinical Indications for Breast MRI  
Dr. Rushi SINGHADWY                                           | 1400 - 1420 | The New R for Radiotherapy – Risk – and its Reduction  
Dr. Simon David PLEDSGE                                                                       |                                      |
| 1420 - 1440 | Sarcoid Disease, the Great Mimic       | 1420 - 1440 | Quality Assurance for the CONVERT Trial  
Dr. Elena Macnaught WILSON                                                                       |                                      |
| 1440 - 1500 | Some Unusual Presentations of Lymphoma: Pitfalls to Avoid  
Dr. Nicola Hilary STICKLAND                                                                        | 1440 - 1500 | Focused and Focal Prostate Brachytherapy for Primary and Radio-Recurrent Disease  
Dr. Roberto ALONZI                                                                             |                                      |
| 1500 - 1520 | The Role of Interventional Radiology in the Management of Colorectal Liver Metastasis  
Prof. Mark CALLAWAY                                                                                 | 1500 - 1520 | Satellite Symposium  
Optimizing Treatment Landscape of ALK+ve NSCLC  
Dr. Mei Ying LIM  
(supported by Roche Hong Kong Limited)                                      |
| 1520 - 1540 | The Role of Interventional Radiology in Pancreatico-biliary Disease  
Prof. Mark CALLAWAY                                                                                 | 1520 - 1550 | Satellite Symposium  
Nasopharyngeal Cancer: Basic MRI Interpretation  
Dr. Catherine Wing Siu WEN                                                                       |                                      |
| 1540 - 1600 | Coffee Break (Exhibition Hall, G/F) | 1540 - 1600 | Satellite Symposium  
Radiologically Inserted Gastrostomy: What Constitutes Best Practice  
Dr. Andy LOWE                                                                                 |                                      |
| 1600 - 1630 | Radionuclide Gastroscopy: ‘Tips and Tricks’ and ‘Pitfalls’ in Interpretation  
Dr. Andy LOWE                                                                                 | 1600 - 1630 | Satellite Symposium  
Recent Advancement in CINH Management with NEPA  
Prof. Wai Wing YEO  
(supported by Mundipharma (HK) Limited)                                                     |                                      |
| 1630 - 1650 | Tomosynthesis Guided Breast Biopsy - 3-Year Experience in Hong Kong  
Dr. Chun Ying LUI                                                                                | 1630 - 1650 | Satellite Symposium  
Advances & Perspectives in Late Line Treatment of MCRC  
Prof. Dr. Combes J. A. PUNT  
(supported by Taiho Pharma)                                                                     |                                      |
| 1650 - 1710 | CT Colonoscopy: ‘Tips and Tricks’ and ‘Pitfalls’ in Interpretation  
Dr. Andy LOWE                                                                                 | 1650 - 1710 | Satellite Symposium  
Satellite Symposium  
Recent Advancement in CINH Management with NEPA  
Prof. Wai Wing YEO  
(supported by Mundipharma (HK) Limited)         |                                      |
| 1710 - 1730 | Expertise in Proton Therapy            | 1710 - 1730 | Satellite Symposium  
Advances & Perspectives in Late Line Treatment of MCRC  
Prof. Dr. Combes J. A. PUNT  
(supported by Taiho Pharma)                                                                     |                                      |
| 1730 - 1900 | Dinner of the Colleges (Run Run Shaw Hall, 1/F) | 1730 - 1900 | Satellite Symposium  
RAD Proffered Papers (Session B)  
Dr. David HING                                                                                 |                                      |
