**Neuroradiologist**

University of Heidelberg,  
Department of Neuroradiology, Germany

**Lecture on "MRI Contrast Agents' Safety"**

**TOPIC:** Recent studies of signal intensity increase in the brain on unenhanced T1w MR images after serial application of gadolinium based contrast agents GBCAs.

**Dr. Jay Starkey**  
**Neuroradiologist**

St Luke's International Hospital, Tokyo, Japan

**Lecture on "Radiation Safety"**

**TOPIC:** Radiation dose management and international guidelines: an update

### TARGET

**AUDIENCES** : Radiologists, Radiographers, Neurologists and Neurosurgeons  
(estimate 150 audiences)

*R.S.V.P. before 16 March 2016*

#### CME/CPD Accreditation (under application):

- Hong Kong College of Radiologists
- Hong Kong College of Physicians
- Hong Kong College of Surgeon
- Hong Kong College of Paediatricians
- MCHK CME Programme
- The Hong Kong Radiological Technologists' Association - 2 CPD points

#### Registration and enquiry:

Susanna Sun / Karen Yip

Tel: 2814 5215 / 2814 4877

Fax: 3526 4765

email: susanna.sun@bayer.com /karen.yip@bayer.com

(For members of The Hong Kong Radiological Technologists' Association (HKRTA), please kindly contact HKRTA through email of [hkrt1965@yahoo.com.hk](mailto:hkrt1965@yahoo.com.hk) for registration directly)

Co-organized by:

Science For A Better Life

Hong Kong College  
of Radiologists

Supporting organization:

The Hong Kong Radiological  
Technologists' Association
